PocketSaver.Views.ItemDetailPage

```
graph BT; A[PocketSaver.Views.ItemDetailPage] --> B[ContentPage]; A --> C[ContentPage];
```

The diagram illustrates a class hierarchy. At the bottom, a box labeled 'PocketSaver.Views.ItemDetailPage' has two arrows pointing upwards to two separate boxes, both labeled 'ContentPage'. The arrows originate from the top edge of the bottom box and point to the bottom edge of each of the top boxes, indicating that 'PocketSaver.Views.ItemDetailPage' inherits from both 'ContentPage' instances.
