PocketSaver.Views.AboutPage

```
graph BT; A[PocketSaver.Views.AboutPage] --> B[ContentPage]; A --> C[ContentPage];
```

The diagram illustrates a class hierarchy. At the bottom, a box labeled 'PocketSaver.Views.AboutPage' has two arrows pointing upwards to two separate boxes at the top, both labeled 'ContentPage'. This indicates that 'PocketSaver.Views.AboutPage' inherits from both 'ContentPage' instances.
