PocketSaver.Views.NewItemPage

```
classDiagram
    class ContentPage
    class PocketSaver.Views.NewItemPage
    ContentPage <|-- PocketSaver.Views.NewItemPage
```

The diagram illustrates a class hierarchy. At the top, there are two boxes, both labeled 'ContentPage'. Below them, centered, is a box labeled 'PocketSaver.Views.NewItemPage'. A horizontal line connects the two 'ContentPage' boxes. From the midpoint of this line, a vertical line descends to the top of the 'PocketSaver.Views.NewItemPage' box. From the top-left corner of the 'PocketSaver.Views.NewItemPage' box, a line extends leftward, then turns upward at a right angle to point at the bottom-left corner of the left 'ContentPage' box. Similarly, from the top-right corner of the 'PocketSaver.Views.NewItemPage' box, a line extends rightward, then turns upward at a right angle to point at the bottom-right corner of the right 'ContentPage' box. This configuration of lines and arrows represents two inheritance relationships from 'PocketSaver.Views.NewItemPage' to 'ContentPage'.
