SEPTEMBER 14, 2017
2:30PM to 4:20PM

Location	In Lab
Attendants	Mevin Mathew, Shalmi Patel, Diya Mathews
Goals for Today's Meeting	Find a open source project and come up with an idea
Notes	Ideas: Financing application to keep track of expenses, Tic Tac Toe game or some simple mobile game
Accomplishments from the Meeting	Found an online open source project for the financing application. CoCoin, the open source financing project, is a project that we found on GitHub created by Weiping Huang in 2016. CoCoin was created in Java using Android Studios.
